Projects

- **Tic Tac Toe Game:** This is a basic implementation of a Tic Tac Toe game using HTML, CSS, and JavaScript. Players take turns clicking on the cells to make their moves, and the game checks for a winner or a draw after each move.
- **Simple Calculator:** Designed and implemented a basic calculator web application using HTML for structure, CSS for styling, and JavaScript for dynamic functionality. The calculator allows users to perform addition, subtraction, multiplication, and division operations in a user-friendly interface.
- **Landing Page:** Created a captivating travel landing page utilizing HTML for structure, CSS for styling, and JavaScript for interactive features. Designed an aesthetically pleasing user interface to showcase travel destinations, incorporating responsive elements for seamless viewing across devices. Implemented JavaScript for smooth scrolling, image sliders, and interactive navigation, enhancing the overall user experience and engagement with the travel content."

Education

Grad. July 2025	**SAI VIDYA INSTITUTE OF TECHNOLOGY** **BE in Information Science**
Grad. July 2021	**RT NAGAR PU COLLEGE** **PCM with Biologys**

Skills

- **HTML**
- **CSS**
- **JavaScript**
